PROJECT: From Recognition to Realization: Costing Model for Lived Experience Expertise

Together with partners, the Global Mental Health Peer Network (GMHPN) is leading an initiative to accelerate progress in the equitable compensation of lived experience expertise in global mental health.

To achieve this aim, we are undertaking the mixed-methods development of a fair, appropriate, and evidence-based model to inform global remuneration practices for the participation of persons with lived experience of mental health conditions and psychosocial disabilities in mental health advocacy, policy, planning, legislation, practice and research initiatives.

This project has been funded by Kokoro and Vitol Foundation.

We are inviting you to contribute to this initiative by completing an anonymous online survey.

Your organization/agency/association has been carefully identified based on its commitment and contribution to equitable and inclusive participation and involvement of persons with lived experience of mental health conditions and psychosocial disabilities in a global context.

The survey will take about 10 minutes to complete.

This survey will ask about approaches considered and/or adopted by your organization in the compensation and remuneration of lived experience expertise, challenges/barriers that hinder full participation, and lessons learned from the process. We will also ask you to provide general attributes of the Organisational Entity (structure, governance, core areas of work, geographic reach and mission).

This survey is completely voluntary. Your responses to this survey are completely anonymous. All identifying information is automatically deleted and is not accessible to anyone at GMHPN at any time. The data will only be reported in group form and never for an individual.

There are no negative consequences if you don't want to take it. If you start the survey, you can always change your mind and stop at any time. You can also choose not to respond to any question.

We would be very grateful if you could please provide your responses by 20 May 2024. We will share a reminder notice after 1 week of this invitation.

You can find further information regarding the study [HERE](#).

If you have any questions please contact **Charlene Sunkel** (Charlene.Sunkel@gmhpn.org).

Many thanks for your support with our study, on behalf of Global Mental Health Peer Network
